This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. FROM 10 A. M. TO 9 P. M.

LIBRARY RULES.

Article 5 of the By-Laws of the Board of Education of the City of Newburgh.

THE FREE LIBRARY.

1. The Library shall be open daily from 10 a. m. to 9 p. m., except on Sundays, legal holidays, and such other days as the Library Committee may decide to close it for any special purpose.

2. The librarian shall have power to appoint assistant librarians, subject to the approval of the Board, who shall render such service in the library as may be assigned to them by the committee or the librarian.

3. The librarian shall, under the Library Committee, have general charge and supervision of the library and reading room and all persons employed therein, and shall be responsible for its correct management and for the due preservation of all its property, and perform such other duties appertaining to his office as the committee or Board of Education shall direct. He shall deliver to persons applying personally or by written order, such books as they may be entitled to receive, and keep a record of the same; he shall sell catalogues, collect all fines and forfeitures incurred by persons taking books from the library, and account for the same to the Board of Education monthly.

4. Books shall be delivered free to persons residing within the corporate limits of the City of Newburgh, under such restrictions and regulations as are provided for by sections 5 and 6, and such other persons as were members of the Mechanics Library Association (whose books form a part of the library), and but one book at a time, and no person having incurred a fine will be entitled to receive another book until such fine is paid or remitted.

Non-residents of the city living in the towns of Newburgh or New Windsor, and vouched for by a member of the Board of Education, may enjoy the same privileges as residents of the city, subject to the same rules and penalties, by the payment of the following sums in advance, viz.: For one year, $6; for six months, $3; for three months, $2.

5. No books shall be delivered to persons under age, unless they reside with some responsible person entitled to the privileges of the library, or are regular attendants of the free schools; nor to minors, without a written order from their employers or other responsible persons

assuming personal responsibility for all damages, losses and fines; and the same rule shall apply to temporary residents of the city and said towns.

6. All books taken from the library may be detained fourteen days, and persons desiring to detain them longer must return them to the librarian and have them renewed, when (except in case of books that have not been the property of the library three months) they may be detained fourteen days longer. Any person detaining a book longer than fourteen days without such renewal, shall be fined *five cents* for the first day of detention, and *two cents* per day for additional days. If a book shall not be returned within one month after it is due, or within three days after notice to return the same, it shall be considered lost or destroyed, and the fine shall be the price of the book or the set to which it may belong.

7. All injuries to books beyond a reasonable wear, and all losses, shall be made good to the satisfaction of the librarian, by the person liable, and should the librarian's claim be deemed unreasonable, the matter may be referred to the Board of Education for final settlement.

8. The younger children shall not be allowed (unless for a special reason) to take out the more costly volumes in the library, or books unsuited to their age and attainments; and as certain books in the library are only designed for reference or examination in the library building, it is hereby ordered that no person shall be permitted to take such books from the library.

9. No books shall be taken from the shelves by any person not a member of the Board of Education or employed in the service of the library.

10. The librarian is authorized to exclude from the privileges of the library and reading room any person who shall willfully persist in disregarding its rules, or whose conduct in other respects is detrimental to its character or to its proper and orderly management.

EXPLANATORY.

THIS CATALOGUE is made on the so-called dictionary system, arranging the names of authors and titles alphabetically. A complete classification by subjects has not been attempted, but most of the works of fiction will be found between numbers 6271 and 7860, and juvenile works between numbers 7880 and 8780.

Author's names will be found under the first letter of the surname, and if a *pseudonym*, there will be a reference to the real name.

Titles will be found under the first word not an article, or some word indicating the subject, (sometimes under both,) followed by the *real* name of the author, if known.

A dictionary of pseudonyms compiled from reliable sources has been added, including the names of some authors whose works are not in this library.
